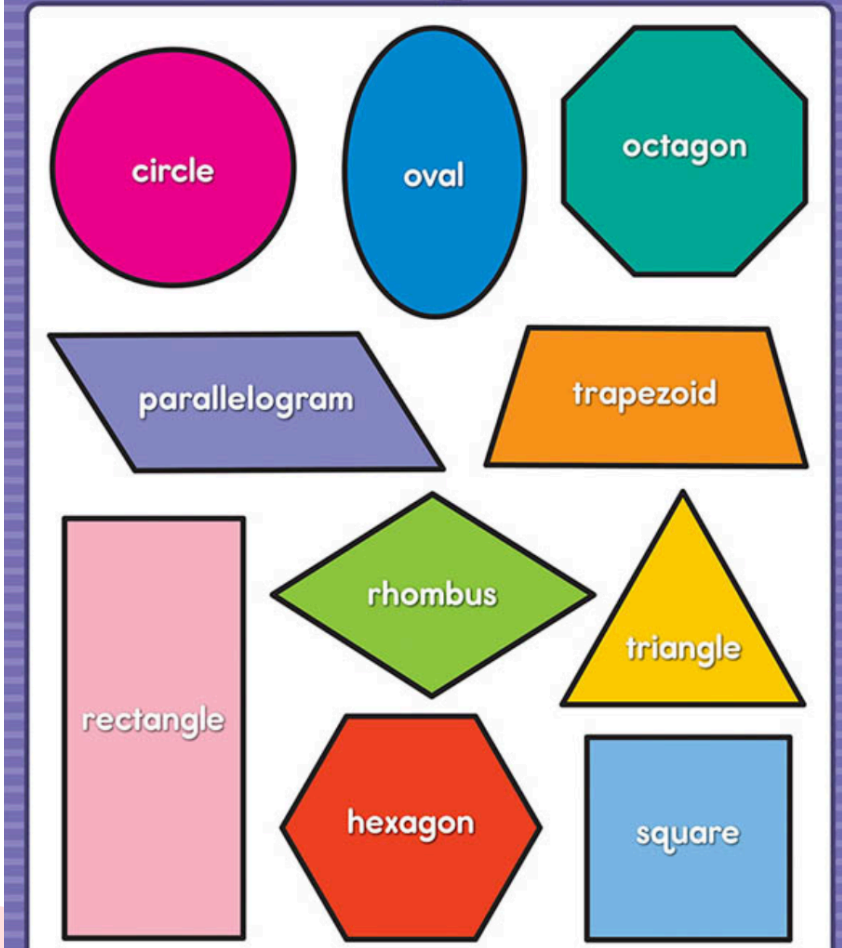
Math Story Time

Instructor: Kira Lou

Different Shapes

Shapes



circle
oval
octagon
parallelogram
trapezoid
rectangle
rhombus
triangle
hexagon
square

Now Let's work on a fun project together

Materials

- *Find 2 pieces of paper that are rectangles.*
- *The paper can be from a notebook or a printer*
- *Kids’ scissor*

1. Fold the paper and cut out the triangles

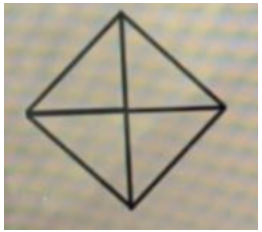
2. Identify what type of triangle it is.

3. Students can use the triangles to make as many different shapes as they can. Please follow the rule:

* They must consist of four triangles
* There must be no gaps or overlaps between triangles
* Each triangle must be touching at least one other triangle
* they triangles must be touching sides of the same length

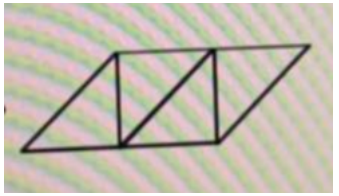
Correct Examples:

1



2

3



Have Students trace their shapes onto a piece of paper.

Decorate your art!

Have Fun!

AWESOME!

THANKS!
